PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience developing responsive web applications with a frontend focus. Experienced with React, Next.js, JavaScript, TypeScript, HTML, CSS, REST APIs, and database-driven applications. Contributed to a real-world care home management system and built web projects involving user interfaces, CRUD operations, API integration, and relational databases.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, TypeScript, React, Next.js, Vite, Tailwind CSS

Backend & Data: Node.js, PHP, REST APIs, MySQL, PostgreSQL, Prisma

Tools: Git, GitHub, VS Code

Additional: API Integration, Responsive Web Design, SEO Fundamentals, Cybersecurity Fundamentals

PROFESSIONAL EXPERIENCE

Freelance Full-Stack Developer (Frontend-Focused) — Care Homes Support Management System | 2026–Present

- Develop responsive web interfaces for a real-world care home management system using Next.js, React, and Tailwind CSS.
- Implement application features and connect frontend functionality with backend services and REST APIs.
- Contribute to data modeling and CRUD operations using Prisma and PostgreSQL.

Data Encoder Intern — City Health Services Office – Animal Bite Treatment Center | Jan 2026 – Mar 2026

- Verified and maintained PhilHealth records with attention to accuracy, organization, and data consistency.

Production Operator — Continental Temic Electronic Phils. | Nov 2021 – May 2022

- Operated automated semiconductor equipment and performed basic troubleshooting while maintaining quality standards.

SELECTED PROJECTS

Hotel Booking System — Full-Stack Developer | PHP, MySQL, HTML, CSS, JavaScript

- Developed a web-based booking system with room reservation and user management features.
- Built responsive interfaces and implemented input validation to improve usability and data accuracy.

Student Tracker System — Frontend / Full-Stack Developer | React, Vite, JavaScript, REST APIs

- Developed responsive interfaces for managing student information.
- Integrated REST APIs to display and manage student records.

Code Den – Code Repository System — Lead Web Developer | React, Node.js, PostgreSQL

- Led development of a web-based repository platform and collaborated with teammates throughout the software development life cycle.

Non-Contact Overloading Detection System (Thesis) — Lead Developer | YOLOv8, Python, Raspberry Pi 4, Camera, GPS

- Led development of an AI-powered passenger overloading detection system, coordinating software development, hardware integration, testing, and deployment.

CERTIFICATIONS

SEO Certified — HubSpot Academy (May 2026–Jun 2027) | Introduction to Cybersecurity — Cisco Networking Academy | Fundamentals of Digital Marketing — Google Skillshop

EDUCATION

Bachelor of Science in Computer Science — City College of Calamba | 2022–2026
