Portfolio: portfolio-pi-three-27.vercel.app

Professional Summary

Computer Science graduate specializing in full-stack web development with experience designing responsive web applications, REST APIs, and database-driven systems. Demonstrated leadership as Lead Developer for an AI-powered computer vision thesis and Lead Web Developer for a collaborative software project. Proficient in JavaScript, TypeScript, React, Next.js, Node.js, PostgreSQL, Git, and modern development practices.

Technical Skills

Languages: JavaScript, TypeScript, Python, HTML5, CSS3

Frontend: React, Next.js

Backend: Node.js, REST APIs

Databases: PostgreSQL, MySQL

Tools: Git, GitHub, VS Code, Microsoft Office

Other: Computer Vision (YOLOv8), SEO Fundamentals, Cybersecurity Fundamentals

Certifications

- SEO Certified – HubSpot Academy (Valid: May 14, 2026 – June 13, 2027)
- Introduction to Cybersecurity – Cisco Networking Academy
- Fundamentals of Digital Marketing – Google Skillshop

Projects

Non-Contact Overloading Detection System (Thesis)

Lead Developer

Tech Stack: YOLOv8 • Python • Raspberry Pi 4 • Camera Module • GPS Module

- Led development of an AI-powered passenger overloading detection system.
- Integrated Raspberry Pi 4, Camera Module, and GPS Module for real-time detection.
- Coordinated software development, hardware integration, testing, and deployment.

Code Den – Code Repository System

Lead Web Developer

Tech Stack: React • Node.js • PostgreSQL

- Led development of a web-based repository platform.

- Collaborated with teammates throughout the SDLC.

Care Homes Support Management System

Frontend Developer

Tech Stack: React • REST APIs

- Developed responsive interfaces.
- Integrated APIs with backend developers.

Experience

Data Encoder Intern

City Health Services Office – Animal Bite Treatment Center | Jan 2026 – Mar 2026

- Verified and maintained PhilHealth records.
- Performed data validation and record verification.
- Collaborated with healthcare personnel and maintained organized records.

Production Operator

Continental Temic Electronic Phils. | Nov 2021 – May 2022

- Operated automated semiconductor equipment and performed basic troubleshooting while maintaining quality standards.

Education

Bachelor of Science in Computer Science

City College of Calamba

2022–2026
