PROFESSIONAL SUMMARY

Computer Science graduate with hands-on full-stack and front-end web development experience, building responsive, database-driven web applications and REST API integrations. Proficient in HTML5, CSS3, JavaScript, React, Next.js, PHP, Node.js, MySQL, and PostgreSQL. Experienced in translating application requirements into functional user interfaces, troubleshooting technical issues, and collaborating on software projects. Technically curious and comfortable learning new platforms and tools.

TECHNICAL SKILLS

Web	HTML5, CSS3, JavaScript, TypeScript, responsive web design
Frontend	React, Next.js, Vite
Backend	Node.js, REST APIs, PHP
Databases	MySQL, PostgreSQL
Tools	Git, GitHub, VS Code, Microsoft Office
Additional	API Integration, SEO Fundamentals, Cybersecurity Fundamentals

SELECTED PROJECTS

Care Homes Support Management System — Frontend Developer (Ongoing)

Tech Stack: React • REST APIs

- Developed responsive web interfaces for a management system.
- Integrated REST APIs with backend functionality to support application workflows.

Hotel Booking System — Full-Stack Developer

Tech Stack: PHP • MySQL • HTML • CSS • JavaScript

- Developed a web-based booking system with room reservation and user management features.
- Implemented CRUD operations and MySQL data management.
- Designed responsive interfaces and validated user input to improve usability and data accuracy.

Student Tracker System — Frontend Developer / Full-Stack Developer

Tech Stack: React • Vite • JavaScript • REST APIs

- Developed responsive interfaces for managing student information.
- Integrated REST APIs to display and manage student records efficiently.

Code Den – Code Repository System — Lead Web Developer

Tech Stack: React • Node.js • PostgreSQL

- Led development of a web-based repository platform.
- Collaborated with teammates throughout the software development life cycle.

Non-Contact Overloading Detection System (Thesis) — Lead Developer

Tech Stack: YOLOv8 • Python • Raspberry Pi 4 • Camera • GPS

- Led development of an AI-powered passenger overloading detection system.
- Coordinated software development, hardware integration, testing, and deployment.

PROFESSIONAL EXPERIENCE

Data Encoder Intern — City Health Services Office – Animal Bite Treatment Center | Jan 2026 – Mar 2026

- Verified and maintained PhilHealth records with attention to accuracy and organization.
- Collaborated with personnel and maintained organized records.

Production Operator — Continental Temic Electronic Phils. | Nov 2021 – May 2022

- Operated automated semiconductor equipment and performed basic troubleshooting while maintaining quality standards.

CERTIFICATIONS

- SEO Certified – HubSpot Academy (Valid: May 14, 2026 – June 13, 2027)
- Introduction to Cybersecurity – Cisco Networking Academy
- Fundamentals of Digital Marketing – Google Skillshop

EDUCATION

Bachelor of Science in Computer Science — City College of Calamba | 2022–2026
